

Curriculum vitae

Gustav Tuschen

Head of Product Engineering
Daimler Buses

Gustav Tuschen, born on March 27, 1962, is Head of Product Engineering Daimler Buses. He holds degrees in mechanical engineering and economics.

He joined the former Daimler-Benz AG in 1989 as an engineer in the commercial vehicles development department. In 1995 he moved to the Daimler subsidiary EvoBus GmbH where he held various positions in urban bus development until 2001. He subsequently became project manager of the New Coach Interurban Project (NCI). In 2006 Gustav Tuschen returned to Stuttgart and to Daimler-Chrysler AG, where he was in charge of Daimler product planning. In 2011 he went to Japan as Head of Development for the Mitsubishi Fuso Truck & Bus Corporation.

Since July 1st, 2013, Gustav Tuschen has been Director of Development at Daimler Buses and a member of the board of management of EvoBus GmbH. In this capacity he is responsible for global development activities in the Daimler Group's bus division.
